

## Guide rail 1.1368

The big one.

The guide rail 1.1368 is extra large and is therefore particularly suitable for larger roller shutter doors.

This guide rail is partially twofold. Thanks to the overhang of the inner profile part, it offers additional protection against pulling out the storm hooks under high wind loads.

The guide rail 1.1368 can be used in connection with almost all common roller shutter profiles and accommodate all storm hooks (except roller storm hooks).

The inset PVC sealing strip reduces wear and improves smooth running.

All PVC sealing strips are also available with a sealing brush; the grey PVC strip can also be provided with an integrated sealing lip.

In addition, reinforcement brackets suitable for protection of the guide rails against deformation under high wind loads are available.

- **measures**  
105 x 85 x 105 mm
- **material**  
3.0 mm galvanized steel
- **weight**  
steel 9.2 kg/m
- **standard length**  
6600 mm
- **spacing of hole**  
600 mm
- **combinations**

PVC colours	opening width	fitting profiles
grey / grey	27 mm	1.100 D, ISO-SL, 1.100 R, Iso-Plus, 1.95 R, 1.1560
anthracite / anthracite	27 mm	1.1460
grey / green	24 mm	1.1440, 1.1620, 1.1630

Due to the tolerances of PVC strips minor deviations of measures are possible.
