

Roller shutter doors rapid action doors

As with the roller shutter door "standard" system, the components of the "high-speed door" system form a sophisticated system that is designed, above all, with the higher performance and requirements of high-speed doors with respect to drive and control.

All shipped systems comply with DIN EN 13241-1.

Scope of delivery:

- pre-assembled roller shutter with the profile ISO-SL, 1.95R or ALU R
- completely finished tube
- 2 standard brackets
