

roller door profiles | perforated and grid profiles

## 1.144L perforated profile

### description

The 1.144L perforated plate profile is not only used wherever air permeability is required, but is also outstandingly suited to the protection of objects such as shop windows in which transparency and optical relaxation are also desired in addition to good protection.

### 1.144L perforated profile

number of slats per mtr	14,5
thickness of slats	19
minimum size of tube	89
fitting bottom rail(s)	1.1210 1.1240 1.1268 1.1288
air / light passage [%]	~ 26 %

### weight per m (m<sup>2</sup>)

steel, stainless steel 1,00 mm	0,85 (12,33)
aluminium 1,25 mm	0,37 (5,37)

### thickness of material [mm]

	1,00	1,25
galvanized steel	•	
aluminium, bright		•
stainless steel	•	

### Maximale Torbreite in mm (wind class 2)

	1,00	1,25
steel, stainless steel	6600	
aluminium		4.900

### cross-sectional shape
